

Why Xerox® DocuMate® Scanners?

Xerox offer a wide range of scanners that cover all Workflow segments – Mobility, Desktop, Workgroup, Network and A3 production.

Some of the benefits which set us apart from our competitors are ease-of-use, flexibility and value for money. Also the impressive software packages include functions such as:

Visioneer OneTouch: an easy to use utility that connects the buttons on the DocuMate scanner with a powerful set of scanner settings – so that with one touch, the document is scanned to popular destinations.

Visioneer Acuity uses advanced algorithms and dynamic thresholding, which enables your scanner to instantly improve the visual clarity of every document that you scan. The technology behind Acuity is clever, but for the user it's simple to achieve crystal clear results with the touch of a button.

Nuance PaperPort transforms paper documents into searchable digital documents, combining the efficiency of document management, the convenience of superbly scanned documents and the power of creating PDF files.

Nuance OmniPage Pro provides a precise OCR and layout retention solution, quickly turning scanned documents into editable, formatted text.

PDF Converter creates industry-standard PDF files from virtually any PC application instantly. Also converts PDF files into fully formatted Microsoft® Office® documents. Enables you to edit directly within PDF files.

Visioneer OneTouch links into major Document Management Solutions such as:

- Xerox® DocuShare & SmartSend
- Xerox® Solutions ScanFlow Store
- Microsoft SharePoint
- EMC Documentum / eRoom
- DocuWare
- Kofax Ascent Capture
- Many more...
